CONTENTS

Kinetics of Isothermal Martensitic Transformation 1
N. N. Thadhani and M. A. Meyers

Dynamic Consolidation of Metal Powders 39
W. H. Gourdin

Thermodynamic and Kinetic Aspects of the Crystal to Glass Transformation in Metallic Materials 81
W. L. Johnson

Martensite and Equilibrium Phases in Cu-Zn and Cu-Zn-Al Alloys 135
M. Ahlers

Spectroscopic Techniques to Investigate Aggregation and Precipitation of Cation Impurities in Alkali Halides: Application to Impurity Hardening and Irradiation Sensitivity 187
F. Agulló-López, J. M. Calleja, F. Cussó, F. Jaque and F. J. López
